Why Solis Group

- 1 Local knowledge with global standards
- 2 Solutions built for African businesses
- 3 Complete support from start to finish

About Us

Our Vision

To shape a smarter world by integrating human expertise, data, and technology to empower sustainable community growth

Our Mission

“To transform organizations through data-driven impact”

Our Values

- United Excellence
- Purposeful Innovation
- Absolute Integrity

A Different Path Forward

Technology alone doesn't transform organizations—thoughtful integration does. **At Solis Technology Group**, we write a different story for businesses seeking meaningful change.

We guide organizations through a journey where technological innovation meets human insight. This path creates environments where businesses achieve operational excellence while their people reach new potential.

The results speak volumes: organizations that don't just grow, but thrive sustainably, creating ripple effects that benefit their teams, customers, and communities alike.

Our Approach

Integration Strategy

We partner with organizations to harness the power of human insight and technological innovation. This collaboration creates environments where:

- **Strategic vision** drives technology decisions, not trends
- **People and processes** evolve together, creating sustainable change
- **Data becomes intelligence** that powers growth
- **African businesses** compete globally through locally-relevant solutions

Enterprise Security & Data Protection

1

We integrate human insight with intelligent security frameworks to protect and empower organizations. Our data-driven approach creates secure, sustainable environments where communities thrive

Result: 40% reduction in security incidents while enabling faster innovation

Smart Community Infrastructure

2

Building tomorrow's foundations by blending human expertise, data analytics, and smart technology. We create infrastructure that adapts, learns, and grows with your community.

Result: 35% improvement in resource utilization and service delivery.

Digital Transformation & Innovation

3

Empowering sustainable growth through data-driven transformation. We combine human expertise with technology to help organizations create lasting positive impact.

Result: 30% growth while reducing operational costs by 25%.

Our Impact

Industry Experience

We've delivered transformative solutions to over 10+ organizations
& key government partners

When working with Solis Group, clients experience:

- Operational efficiency improvements through optimized processes
- Enhanced security posture with integrated protection frameworks
- Data-driven decision-making capabilities
- Technology implementations that support rather than replace human potential

Collaboration Strategy: The Solis Integration Model

SolisBot

RPA SUCCESS STORY

Financial Institution

Challenge:

Bank needed to digitize paper archives.
Manual processes created access difficulties,
complexity, and compliance risks.

Solution:

Automated OCR-powered digitization with
intelligent data document classification.

Results:

- Reduced processing time by 58%
- Decreased retrieval time by 35%
- Improved data security and compliance

Partners & Future

Industries we transform

Retail & E-commerce:

Businesses using SolisBook boosts efficiency by **20-35%**, cutting Invoicing and inventory time by **30-40%**

Healthcare:

Automating claim processing increases efficiency by **40%**, reducing delays and improving cash flow across facilities.

Partnership Benefits

- Advanced Certification access
- Early technology adoption
- Joint Innovation programs
- Global delivery capabilities

Future vision

2025 Vision

- Enhanced client support center
- Innovation center in Kampala
